SURGEON'S STORY

“Dr. Witton” is an experienced plastic surgeon certified by the Medical Council of Thailand who is widely recognized and well known in both Thai and international plastic surgery industry. With over 40 years of experience, he highly expertizes in all types of cosmetic surgeries including facial surgery such as face lift, eyelid surgery, facial lipofilling, rhinoplasty (augmentation or reduction), breast surgery both normal surgical techniques and laparoscopic surgery which is a special technique that makes the wounds less painful and the patient's body heals more quickly. In addition, he also specializes in body contouring or slimming surgery such as liposuction using VASER technique for abdominal lift and fat transfer.

Dr. Witton is dedicated to every treatment for every patient as he truly understands that patients who come to his consultation and want to have a plastic surgery have high expectations and they hope to see a better looking and more confident version of themselves. He therefore pays attention to every step of the treatment for the best possible results. Every step is a perfect combination of sophistication, attention to detail and real understanding of the needs and expectations of the patients. The goal of his path of being a plastic surgeon for the past 40 years is to help increase patient's confidence. “Because beauty will increase our confidence”.
